Μήνυμα: Dear Sir or Madam,

Currently I am looking into the legislation and requirements for continuing education and reregistration of dentist in Europe.

I found that in Greece continuing education is required by law for dentist practising within the NHS. However, since there is no structured continuing education programme available, there are no sanctions connected to non-compliance.

Is this information correct?

Has there been a proposal by the Board of the Hellenic Dental Association to the Ministry of Health and Welfare for a continuing education system and has legislation concerning this been effected?

I am looking forward to hearing from you, thank you for your help.

Best regards,
