APPENDIX 1 - DATA PROTECTION

MELIÀ, in its capacity as Data Processor, will carry out the processing of personal data necessary for the proper performance of this Agreement. The provision of the services that the subject matter of this Agreement implies the performance by MELIÀ of the following processing: registration, consultation and storage.

Personal data will be processed only to comply with the obligations of this Agreement. If MELIÀ considers it necessary to carry out data processing with a different purpose, it must proceed to request advance written authorisation from the COMPANY. This limitation will operate exclusively until the data holder checks in or until the latter maintains direct contact with MELIÀ.

The types of personal data that MELIÀ will process under this Agreement are the following:

- Identification data (name and surname(s))
- Data of the reservations: date of arrival and departure, accommodation basis, type of room.

The categories of data subjects whose data will be processed by MELIÀ under this Agreement are the clients of the COMPANY and, in turn, of the Hotels. In particular, MHI undertakes to comply with the following obligations:

- a. Process the personal data solely to fulfil the Agreement, adapting to the instructions specified at any given time in writing by the COMPANY. If MELIÀ considers that any of the instructions of the COMPANY violates the prevailing data protection regulations, it will immediately notify the COMPANY using the means and the contact person instructed by the COMPANY. At the time of formalisation of the accommodation contract, check-in process and/or any other direct contact that may be undertaken by the data holder, MELIÀ will be considered as the data controller.
- b. Maintain the duty of secrecy regarding personal data to which they have access, even after the contractual relationship has ended, as well as to ensure that persons under their charge have given a written undertaking to maintain the confidentiality of the personal data processed.
- c. Guarantee, taking into account the state of the art, the costs of application, and the nature, scope, context and purposes of the processing, as well as risks of varying likelihood and severity for the rights and freedoms of natural persons, that it will apply the appropriate technical and organisational measures to guarantee a level of security appropriate to the risk. When assessing the suitability of the security level, it will take particular account of the risks of the data processing, in particular as a result of the destruction, loss or accidental or unlawful alteration of personal data transferred, stored or otherwise processed, or unauthorised disclosure or access to such data.
- d. Keep under its control and custody the personal data that it accesses for the provision of the Service and not to disclose them, transfer them, or in any other way communicate them, not even for custody purposes, to persons unconnected to the same and to the provision of the service that is the subject matter of this Agreement. The COMPANY authorises the subcontracting by MELIÀ to third parties that provide computer hosting services, software development, database management, booking control or contracting. MELIÀ is obliged to transfer and communicate to the Subcontractor the set of obligations that arise for the Data Processor from this Agreement.
- e. At the discretion of the COMPANY, erase or return all personal data to which it has had access to provide the service. Furthermore, MELIÀ undertakes to erase the existing copies, unless there is a legal rule that requires the storage of personal data. However, MELIÀ must keep the data duly blocked, for as long as liabilities could arise from its relationship with the COMPANY. This restriction will not apply to the data that MELIÀ has in its relationship with the data holder as data controller.
- f. Notify the COMPANY by email as soon as it becomes aware of the existence of any "Security Breach" that involves the destruction, loss or accidental or unlawful alteration, loss and alteration, disclosure and unauthorised access of personal data transferred, stored or otherwise processed, or unauthorised disclosure or access to such data. In addition, MELIÀ undertakes to provide support to the COMPANY if notification has to be sent to the Spanish Data Protection Agency (AEPD) and, if applicable, to the data subjects concerning security breaches that take place.
- g. Provide support to the COMPANY, when necessary, in carrying out privacy impact assessments and in the prior consultation with the Spanish Data Protection Agency, when appropriate.

MELIÃ

ATHENS

- h. Assist the COMPANY so that it can comply with the obligation to respond to requests for the exercise of rights. If a data subject exercises its rights directly with MELIÃ, the latter undertakes to notify the COMPANY within 72 hours of receiving the request. MELIÃ will not respond to the data subject unless it has prior authorisation from the COMPANY.
- i. Keep a written record of all categories of processing activities carried out on behalf of the COMPANY.
- j. Cooperate with the Spanish Data Protection Agency, or at its request, with any other supervisory authority in the exercising of its powers.
- k. Make available to the COMPANY all the necessary information to demonstrate compliance with the obligations established in this Agreement.

If, within the framework of the services that are the subject matter of this Agreement, it is necessary to transfer data to third parties located outside the European Union, such international transfer will be made exclusively when it is necessary for the management of the contracting carried out by the data subject with the Data Controller and MELIÃ.

If MELIÃ or any of its Subcontractors violates this stipulation or any regulations when determining the purposes and means of the processing, it will be considered the data controller of such processing.

Each of the Parties is informed that the contact details of their representatives and employees processed under this agreement will be processed by the other party in order to allow the development, compliance and control of the relationship of the provision of services arranged. The basis of the processing is the fulfilment of the contractual relationship and keeping the data during the entire time this remains in force and even afterwards, until the possible liabilities arising therefrom have become time-barred. The data of the Parties may be disclosed to banks and savings banks, for the management of collections and payments, and to the Tax Agency and other Public Administrations, for the purpose of submitting the corresponding tax returns and complying with their respective legal obligations pursuant to prevailing regulations. The parties may request access to personal data, its rectification, its erasure and the restriction of processing, as well as objection, at the address of the other party shown at the top of this Agreement.

Each party will be liable for any breaches in terms of Data Protection determined by the Supervisory Authority, expressly waiving the reimbursement of any fine, expense or cost that the other party may incur.
